

TUTOR 501

DESCRIZIONE: DESCRIPTION

Sistema di blocco di copertura destinato a serrature a Cilindro Europeo . Protegge la serratura coprendola e nascondendola agli occhi dei malintenzionati. Aumenta la resistenza agli attacchi violenti e previene qualsiasi tentativo di manipolazione alla serratura sottostante.

Cover Lock System designed for Euro Cylinder locks. It protects the lock by covering and hiding it from the eyes of wrongdoers. It increases resistance to violent attacks and prevents any attempt to tamper with the underlying lock.

MATERIALE / MATERIAL

ESTERNO: Acciaio Inox AISI 303. AVP C40 carbonitrurato (HRC 59-63)

INTERNO: Magneti permanenti indotti in carica per saturazione (Nd35)

EXTERNAL: Stainless Steel AISI 303. AVP C40 carbonitrided (HRC 59-63)
